11-backbone fixed Test | Standard Test · 1,036 queries

Fixed Val-selected checkpoints; threshold grid 0:.01:1, score > threshold. mAP is ungated; Test not used for tuning.
GMR baseline denotes the current auxiliary-trained Stage 1. Moment is reused with original source identities.

11-backbone fixed Test | Full-Decodable Test · 2,970 / 2,986 queries
